(*) Local school and/or youth organization policies may apply.

(**) Tuition discounts are applied in about 50% of cases and can reduce Great Expectations courseware fees and the cost per hour of training further.

(***) As a safeguard against understating the Great Expectations tuition expense an additional \$100 per person expense for textbooks, program awards and any additional compensation for the program facilitator has been added to the average price of the Great Expectations courseware and included in the calculation used to estimate the Great Expectations cost per hour of training.

(****) Delivered personally by Dr. Ashby or other senior LCG associate(s). Includes full facilitation and all materials. Expenses for local classes billed separately. University-based programs and CCL program also include lodging and meals, but not round-trip travel expense to the program campus location.. All competitor information was taken from the website of each institution or organization in May 2010.
